

## SAFE SWITCH 2 PLUS

### How To Connect The Switch

Connect Battery to Deans Compatible Connector. Refer to the above label for connecting to the Rx. Connect the included Male to Male Extensions from the output on the Switch to the Rx. Make note to follow the pin configuration when making the connections. Always check the LED Battery Monitor for proper voltage. When both green lights are off, the 2s Lipo Battery is at appx. 7.2v and may need to be recharged before use again.
