

SPEKLINE 6V/6.5V VOLTAGE REGULATOR

Switch

Change the Voltage
with Switch.

Red LED = 6V

Green LED = 6.5V

How To Connect The Regulator

Connect the Female Connector to the Rx/Power Bus, then connect the Male Connector to your 2s Lipo. You may use the Switch on the AR7100/R Rx or Plug/Unplug the Battery to Power on and off. **DO NOT leave Battery connect for prolonged periods of time as it may cause the Battery of over-discharge.**
